Let's Promote Your SCCR Foster Dog!

1

Take photos & videos on your phone in portrait (vertical) mode at the dog's level.

2

A plain background is best when taking photos and video.

3

Use a toy or noises to encourage the dog to make eye contact with the camera.

4

Email your pics & videos to photos@sccrescue.org. Include your foster dog's name and anything special or fun we can share on social media.

5

Comment, like, & share new SCCR posts about your foster pup.
